

FUR FARMING IS GOOD FOR EUROPE!

BECAUSE:

› Europe N°1

- Europe = world leader in the sector (**64%** of world production)
- **7,200** European fur farmers
- **120,000** direct and indirect jobs
- **21** European countries as EFBA members

› Highly competitive

- Through excellent quality of fur production
- Animal welfare certification underway (Welfur Programme)

› A sustainable farming activity

- Animal feed coming from food recycling chain
- Limited use of natural resources – land and water
- Waste recycled into biofuel production
- No transportation: fur animals are born, bred & killed inside the farm
